PRESS RELEASE

## PORN FILM FESTIVAL VIENNA

---

10. - 14. APRIL 2025

### ACCESSIBILITY, GENERATIONAL GAPS AND AI IN FOCUS

PFFV returns for its **8th edition** to once again **radically redefine sex on screen**, challenge societal stigma and redefine how we experience sex, desire, and identity.

For our 2025 edition, we spotlight **sex work** - its realities, narratives, and politics - and its **sympiosis with porn**. We also dive into **generational shifts in desire**, evolving gender perspectives, and **AI's growing influence on pleasure**, identity, and the body.

This year, we showcase **18 feature films** and **150 shorts** across **20 curated programs**, offering a diverse and thought-provoking selection of content. Our screenings will be complemented by a series of discussions, performances, and our **"sexy solidarities" exhibition** at Semperdepot that explores how **social injustice**, violence and conflict **impact bodies and identities**.

Last year, PFFV welcomed **7,000 guests** that joined us on our mission to offer a platform for diverse voices and political conversations on the spectrum of intimacy, gender and sexual education.

PFFV welcomes all **porn enthusiasts**, erotic connoisseurs, and **curious minds** to join us for four days of **raw lust**, indulgence, and unapologetic pleasure, in a space where **porn is diverse**, political, and - most importantly - for everyone.

### "SEXY SOLIDARITES" EXHIBITION – A PRELUDE TO PFFV 2025

Before kicking-off our screenings, we soft launch our 2025 edition with the opening of our **exclusive exhibition** on **April 8th**, running until **April 13th** at Semperdepot.

The exhibition features **40 artists** from **15 countries**, with 7 photography projects, 4 installations, 6 paintings, 3 drawings, 8 video works, 5 sculptural artworks, 7 performances, and 1 workshop.

**sexy solidarities** invites visitors to engage in a space for reflection, provocation, and sensual exploration, offering festivalgoers an immersive experience that extends beyond the cinema screen.
